

Homeowner / Business – Engineering Design Notice

Seymour Road Reconstruction

Further to Council Award on June 7, 2024, the City of North Bay has authorized Tatham Engineering Limited to begin the preliminary and detailed design of Seymour Street Reconstruction project. Since the proposed construction commencement the Municipal Class Environmental Assessment, Schedule C report will be reviewed since the proposed construction commencement will exceed a ten-year period, a review of the planning and design process and the current environmental setting will be completed to ensure that the project and the mitigation measures are still valid

. The construction will see the following improvements:

- Existing road pulverized and a asphalt paved
- New concrete sidewalk
- Rehabilitated storm drainage ditches and culverts.
- Restoration of disturbed area

The preliminary and detailed design of the Premier Road section from Fowler to Champlain Park will start immediately with a tentative start date for construction by mid August with an anticipated completion by November 15, 2024

Once the detailed design has been advanced, the City of North Bay will issue an additional notice directing the public to review information posted to the City's website.

Thank you,

Gerry McCrank
