

THE CORPORATION OF THE CITY OF NORTH BAY

BY-LAW NO. 2000 - 144

A BY-LAW TO FURTHER DESCRIBE THE SCHEDULES OF TRANSFERRED ASSETS OF THE HYDRO-ELECTRIC COMMISSION OF THE CITY OF NORTH BAY TO SUCCESSOR CORPORATIONS IN ACCORDANCE WITH THE *ELECTRICITY ACT*, 1998.

WHEREAS UNDER SUBSECTION 145(1) OF THE *ELECTRICITY ACT, 1998* (THE "ELECTRICITY ACT") THE MUNICIPAL COUNCIL (THE "COUNCIL") OF THE CORPORATION OF THE CITY OF NORTH BAY (THE "CITY") MAY MAKE BY-LAWS TRANSFERRING EMPLOYEES, ASSETS, LIABILITIES, RIGHTS AND OBLIGATIONS OF THE CITY OR OF A COMMISSION OR OTHER BODY THROUGH WHICH THE CITY DISTRIBUTES OR RETAILS ELECTRICITY, TO A CORPORATION INCORPORATED UNDER THE *BUSINESS CORPORATIONS ACT* (ONTARIO) PURSUANT TO SECTION 142 OF THE ELECTRICITY ACT;

AND WHEREAS PURSUANT TO SUBSECTION 142(2) OF THE ELECTRICITY ACT THE CITY HAS INCORPORATED NORTH BAY HYDRO DISTRIBUTION LIMITED, AND NORTH BAY HYDRO HOLDINGS LIMITED (THE "CORPORATIONS") UNDER THE *BUSINESS CORPORATIONS ACT* (ONTARIO) FOR THE PURPOSE OF CARRYING ON THE DISTRIBUTION, AND RETAILING OF ELECTRICITY, THE TELECOMMUNICATIONS SERVICE AND OTHER ASSOCIATED BUSINESS ACTIVITIES CURRENTLY CARRIED ON BY NORTH BAY HYDRO;

AND WHEREAS THE CITY HAS PASSED BY-LAWS 2000-93 AND 2000-139 TO TRANSFER THE ASSETS AS DESCRIBED IN THE COOPER APPRAISAL BINDER, DATED MAY 10, 1999 AND IT IS DEEMED DESIRABLE TO FURTHER DESCRIBE SUCH ASSETS.

NOW THEREFORE THE COUNCIL OF THE CORPORATION OF THE CITY OF NORTH BAY HEREBY ENACTS AS FOLLOWS:

1. SCHEDULE "C" TO NORTH BAY BY-LAW 2000-93 IS HEREBY AMENDED BY ADDING THE FOLLOWING SCHEDULES TO THE SCHEDULE "C" WHICH ARE BY THIS REFERENCE DEEMED TO BE INCORPORATED IN AND TO FORM PART OF THIS BY-LAW HEREOF:

SCHEDULE "A" -	REAL PROPERTY INTERESTS
SCHEDULE "B" -	REAL PROPERTY LEASES
SCHEDULE "C" -	EASEMENTS
SCHEDULE "D" -	VEHICLES
SCHEDULE "E" -	INTELLECTUAL PROPERTY
SCHEDULE "F" -	LICENCES AND PERMITS
SCHEDULE "G" -	COMPUTER HARDWARE AND SOFTWARE
SCHEDULE "H" -	EXCLUDED ASSETS AND EXCLUDED LIABILITIES
SCHEDULE "I" -	ALLOCATION OF CONSIDERATION

2. SECTION 1 OF SCHEDULE "C" OF BY-LAW 2000-93, AS AMENDED BY BY-LAW 2000-139, IS HEREBY FURTHER AMENDED BY DELETING FROM THE DEFINITION OF " EXCLUDED ASSETS" THE FOLLOWING: "... THE HEAD OFFICE AT 1350 FISHER STREET AND THE 3 SURPLUS VACANT LANDS AT CARLO CRESCENT, BIRCH'S ROAD AND CFB NORTH BAY..." AND INSERTING IN LIEU THEREOF "... THE SURPLUS VACANT LANDS AT CARLO CRESCENT."

COMMENCEMENT:

3. THIS BY-LAW COMES INTO FORCE AS OF NOVEMBER 1, 2000..

READ A FIRST TIME IN OPEN COUNCIL THIS 6TH DAY OF NOVEMBER, 2000.

READ A SECOND TIME IN OPEN COUNCIL THIS 6TH DAY OF NOVEMBER, 2000.

READ A THIRD TIME IN OPEN COUNCIL AND ENACTED AND PASSED THIS 6TH DAY OF NOVEMBER, 2000.

MAYOR

CITY CLERK

Transitional Distribution Licence

1. Definitions

In this Licence:

"Accounting Procedures Handbook" means the handbook, approved by the Board and in effect at the relevant time, which specifies the accounting records, accounting principles, and accounting separation standards to be followed by the Licensee;

"Act" means the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B.

"affiliate", with respect to a corporation, has the same meaning as in the *Business Corporations Act*;

"Affiliate Relationships Code" means the code, approved by the Board and in effect at the relevant time, which, among other things, establishes the standards and conditions for the interaction between electricity distributors or transmitters and their respective affiliated companies;

"ancillary services" means services necessary to maintain the reliability of the IMO-controlled grid, including frequency control, voltage control, reactive power and operating reserve services;

"Board" means the Ontario Energy Board;

"consumer" means a person who uses, for the person's own consumption, electricity that the person did not generate;

"Director" means the Director of Licensing appointed under section 5 of the Act;

"distribute", with respect to electricity, means to convey electricity at voltages of 50 kilovolts or less;

"distribution services" means services related to the distribution of electricity and the services the Board has required distributors to carry out, including the sale of electricity to consumers under section 29 of the Act, for which a charge or rate has been established in the Rate Order;

"distribution system" means a system for distributing electricity, and includes any structures, equipment or other things used for that purpose;

"Distribution System Code" means the code approved by the Board and in effect at the relevant time, which, among other things, establishes the obligations of the distributor with respect to the services and terms of service to be offered to customers and retailers and provides minimum technical operating standards of distribution systems;

"distributor" means a person who owns or operates a distribution system;

"*Electricity Act*" means the *Electricity Act, 1998*, S.O. 1998, c. 15, Schedule A.

"generate", with respect to electricity, means to produce electricity or provide ancillary services, other than ancillary services provided by a transmitter or distributor through the operation of a transmission or distribution system;

"generation facility" means a facility for generating electricity or providing ancillary services, other than ancillary services provided by a transmitter or distributor through the operation of a transmission or distribution system, and includes any structures, equipment or other things used for that purpose;

"generator" means a person who owns or operates a generation facility;

"holiday" means a Saturday, Sunday, statutory holiday, or any day that the Board's offices are closed;

"IMO" means the Independent Electricity Market Operator established under the *Electricity Act*;

"IMO-controlled grid" means the transmission systems with respect to which, in accordance with agreements, the IMO has authority to direct operations;

"Licensee" means the person named on the front of this Licence,

"Market Rules" means the rules made under section 32 of the *Electricity Act*;

"Minister" means the Minister of the Ministry of Energy, Science and Technology;

"Performance Standards" means the performance targets for the transmission and connection activities of the Licensee as established by the Board in accordance with section 83 of the *Act*;

"rate" means a rate, charge or other consideration and includes a penalty for late payment;

"Rate Handbook" means the handbook approved by the Board and in effect at the relevant time, which among other things, establishes the methods for fixing rates and establishes conditions and performance targets for distribution services;

"Regulations" means the regulations made under the *Electricity Act* or the *Act*;

"retail", with respect to electricity, means,

- a) to sell or offer to sell electricity to a consumer,
- b) to act as agent or broker for a retailer with respect to the sale or offering for sale of electricity, or
- c) to act or offer to act as an agent or broker for a consumer with respect to the sale or offering for sale of electricity;

"Retail Metering Code" means the code approved by the Board and in effect at the relevant time, which, among other things, establishes metering and meter reading standards and rules for providing interval metering;

"Retail Settlements Code" means the code approved by the Board and in effect at the relevant time, which, among other things, establishes a distributor's obligations and responsibilities associated with financial settlement among retailers and consumer and provides for tracking and facilitating consumer transfers among competitive retailers;

"retailer" means a person who retails electricity;

"service area", with respect to a distributor, means the area in which the distributor is authorized by its licence to distribute electricity;

"Standard Supply Service Code" means the code approved by the Board and in effect at the relevant time, which, among other things, establishes the minimum conditions that a distributor must meet in carrying out its obligations to sell electricity under section 29 of the *Electricity Act*;

"transmission system" means a system for transmitting electricity, and includes any structures, equipment or other things used for that purpose;

"transmit" means to convey electricity at voltages of more than 50 kilovolts;

"transmitter" means a person who owns or operates a transmission system;

"wholesale buyer" means a person that purchases electricity or ancillary services in the IMO-administered markets or directly from a generator; and,

"wholesale supplier" means a person who sells electricity or ancillary services through the IMO-administered markets or directly to another person, other than a consumer.

2. Interpretation

In this Licence words and phrases shall have the meaning ascribed to them in the *Act* or the *Electricity Act*. Words or phrases importing the singular shall include the plural and vice versa. Headings are for convenience only and shall not affect the interpretation of the licence. Any reference to a document or a provision of a document includes an amendment or supplement to, or a replacement of, that document or that provision of that document. In the computation of time under this licence where there is a reference to a number of days between two events, they shall be counted by excluding the day on which the first event happens and including the day on which the second event happens and where the time for doing an act expires on a holiday, the act may be done on the next day.

3. Authorization

The Board, in the exercise of the powers conferred by Part V and subsection 129 (1) of the *Act*, subject to the conditions set out in this Licence, licenses the Licensee to own or operate a distribution system in the service area described in Schedule 1 of this Licence. Under section 84 of the *Act*, the Director or the Board may determine that a system, or part of a system, that forms part of a transmission system is a distribution system or part of a distribution system and vice versa.

Subject to the conditions set out in this Licence, the Board, in the exercise of the powers conferred by Part V and subsection 129(1) of the *Act*, licenses the Licensee, during the period prior to subsection 26(1) of the

Electricity Act coming into force, to sell electricity to consumers to whom the Licensee provides distribution services, but the Licensee is not entitled to contract with a consumer to sell electricity which is to be provided on or after the day on which subsection 26(1) comes into force.

The Board, in the exercise of the powers conferred by Part V and subsection 129 (1) of the *Act*, subject to the conditions set out in this License, licenses the Licensee to retail electricity for the purposes of fulfilling its obligation under section 29 of the *Electricity Act* in the manner specified in Schedule 2 of this License.

4. Fees and Assessments

The Licensee shall pay all fees charged and amounts assessed by the Board.

5. Term of Licence

This Licence shall take effect on April 1, 1999 and terminate on April 1, 2001. The term of this Licence may be extended by the Board.

6. Transfer of Licence

6.1 In accordance with subsection 18(2) of the *Act*, this Licence is not transferable or assignable without leave of the Board.

6.2 Despite paragraph 6.1, where the Licensee is a municipal corporation or a public utility commission, this Licence is transferable by a transfer by-law under section 145 of the *Electricity Act* to a corporation incorporated in accordance with section 142 of the *Electricity Act*.

6.3 The Licensee shall notify the Board that such a by-law has been enacted and provide the Board the name of the new corporation.

7. Amendment of Licence

The Board may amend this Licence in accordance with section 74 of the *Act* or section 38 of the *Electricity Act*.

8. Orders for Securing Compliance

If the Board is satisfied that the Licensee is contravening this Licence or is likely to contravene this Licence, the Board may order the Licensee to comply with this Licence in accordance with section 75 of the *Act*.

9. **Suspension or Revocation of Licence**

9.1 The Board may suspend or revoke this Licence in accordance with sections 76 and 77 of the *Act*.

9.2 The Board may cancel this Licence if the Licensee agrees, at any time, in writing that this Licence should be cancelled.

10. **Provision of Information to the Board**

10.1 The Licensee shall provide, in the manner and form determined by the Board, such information as the Board may require from time to time to monitor the Licensee's compliance with all legislative and regulatory requirements, including the conditions of this Licence.

10.2 Without limiting the generality of paragraph 10.1 the Licensee shall notify the Board of any material change in circumstances that adversely affects or is likely to adversely affect the business, operations or assets of the Licensee as soon as practicable, but in any event within fifteen days of the date upon which such change occurs.

11. **Obligation to Comply with the Market Rules**

The Licensee shall comply with the applicable provisions of the Market Rules.

12. **Non-discriminatory Access**

12.1 On and after the day on which subsection 26(1) of the *Electricity Act*, comes into force, the Licensee shall, upon the request of a consumer, generator or retailer, provide such consumer, generator or retailer, as the case may be, with access to the Licensee's distribution system and shall convey electricity on behalf of such consumer, generator or retailer in accordance with the terms of this Licence, the Distribution System Code, Rate Handbook and the Market Rules.

12.2 Paragraph 12.1 does not apply to a Licensee who has been exempted by regulation from the obligation to provide non-discriminatory access in accordance with subsection 26(1) of *Electricity Act*, unless such Licensee consents to be bound by paragraph 12.1.

13. Obligation to Connect

- 13.1 On and after the day section 28 of the *Electricity Act* comes into force, the Licensee shall connect a building to its distribution system if:
- a) the building lies along any of the lines of the distributor's distribution system, and
 - b) the owner, occupant or other person in charge of the building requests connection in writing.
- 13.2 On and after the day section 28 of the *Electricity Act* comes into force, the Licensee shall make an offer to connect a building to its distribution system if:
- c) the building is within the Licensee's service area as described in Schedule 1, and
 - d) the owner, occupant or other person in charge of the building requests connection in writing.
- 13.3 The terms of such connection or offer to connect shall be made in accordance with the Distribution System Code and Rate Handbook.
- 13.4 Any question as to the fairness or reasonableness of the terms of such connection or offer to connect shall be determined by the Board.

14. Obligation to Supply

- 14.1 On and after the day section 29 of the *Electricity Act* comes into force, the Licensee shall sell electricity or ensure that electricity is supplied to every person connected to the Licensee's distribution system in accordance with section 29 of the *Electricity Act* and the Standard Supply Service Code.
- 14.2 The Licensee may fulfill its obligation to supply, subject to subsection 50 (4) of the *Electricity Act*, directly, through an affiliate, through another person with whom the Licensee or an affiliate of the Licensee has a contract or through a combination of the three methods.
- 14.3 The Licensee shall notify the Board as to the manner in which it intends to fulfill its obligation under section 29 of the *Electricity Act*. The Licensee shall not commence fulfilling the obligation until the Board has approved the manner.

14.4 Despite 14.1 and 14.2 these paragraphs do not apply where the Licensee has obtained an exemption from the obligation to supply under subsection 29(4) of the *Electricity Act*.

15. System Integrity

The Licensee shall maintain its distribution system to meet the standards established in the Distribution System Code, Retail Metering Code, Market Rules and having regard to any other recognized industry operating or planning standards required by the Board.

16. Restrictions on Provision of Information

16.1 The Licensee shall not, unless necessary for compliance with the Market Rules or any Board approved code or standard, disclose specific information regarding a consumer, retailer, wholesale buyer, wholesale supplier, or a generator to any party unless the release of such information has been authorized by the particular consumer, retailer, wholesale buyer, wholesale supplier or generator.

16.2 The Licensee shall not disclose consumer information to a third party without the consent of the consumer in writing, except where consumer information is required to be disclosed:

- (a) for billing or market operation purposes;
- (b) for law enforcement purposes;
- (c) for the purpose of complying with a legal requirement; or
- (d) for the processing of past due accounts of the consumer which have been passed to a debt collection agency.

16.3 Consumer information may be disclosed where the information has been sufficiently aggregated such that an individual's consumer information cannot reasonably be identified, but must be made available on a non-discriminatory basis.

16.4 The Licensee shall inform consumers regarding the paragraphs under which consumer information may be released to a third party without the consumer's consent.

16.5 The Licensee shall not use consumer information obtained for one purpose from a consumer for any other purpose without the consent of the consumer in writing.

16.6 The Licensee shall ensure that a third party does not use consumer

information obtained for one purpose from the Licensee for any other purpose except for the reason for which it was originally disclosed in accordance with the first clause.

17. Obligation to Comply with Codes

17.1 The Licensee shall at all times comply with all applicable provisions of:

- a) the Affiliate Relationships Code for Electricity Distributors and Transmitters,
- b) the Distribution System Code,
- c) the Retail Metering Code,
- d) the Retail Settlements Code, and
- e) the Standard Supply Service Code,

(collectively "the Codes"), as such Codes have been approved by the Board and are in effect at the relevant time.

17.2 The Licensee shall:

- a) make a copy of the Codes available for inspection by members of the public at its head office and regional offices during normal business hours and;
- b) provide a copy of the Codes to any person who requests it. The Licensee may impose a fair and reasonable charge for the cost of providing copies.

17.3 The Board may approve amendments to any of the Codes in accordance with the following provisions:

- a) the Licensee or any other person may file with the Board a proposed amendment to a specified Code or Codes;
- b) where the Board determines that the proposed amendment does not require consultation, the Board may approve the amendment;
- c) where the Board determines that the proposed amendment requires consultation:
 - i) the Board shall direct the Licensee or other person who filed the proposed amendment ("the Notifying Party") to give notice of it in such manner and to such persons as the Board may direct;
 - ii) the notice shall invite written submissions to the Notifying Party within such reasonable time as the Notifying Party shall indicate;
 - iii) after considering the written submissions and making any changes to the proposed amendment it considers advisable,

- the Notifying Party may file the proposed amendment with the Board and request that the Board approve the proposed amendment; and
- iv) where the Board determines that further consultation is necessary in regard to a proposed amendment, it shall give directions as to the manner in which that further consultation is to be conducted.
- 17.4 Any question as to the reasonableness of the time set out by the Notifying Party shall be determined by the Board.
- 17.5 The Board may make amendments to any of the Codes of its own motion but where the amendment would materially change the Code, the Board shall not make the amendment until it has:
- a) provided notice in such manner and to such persons as the Board may direct; and
- b) in the notice, invite written submissions within such reasonable time as the Board may direct.
- 17.6 Where the Board approves or makes an amendment to any of the Codes, the Board shall give notice of the amendment to each licence holder who is required to comply with the relevant Code as a condition of its licence.
- 17.7 An amendment to a Code shall come into force on a date specified by the Board in the notice given under paragraph 17.6
- 17.8 The Board, upon application by the Licensee, may make a determination that one or more of the provisions of any Code do not apply to the Licensee. Such determination may be in the form of a modification, variation or exemption as the case may be. Following the Board's determination of the application, the relevant Code shall apply as modified.
- 17.9 The Board may provide for certain exemptions from the Affiliate Relationships Code for Electricity Distributors and Transmitters to facilitate efficient implementation for distributors. Any such exemptions shall be set out in Schedule 3 of this Licence.

18. Separation of Business Activities

- 18.1 The Licensee shall keep its financial records associated with distributing electricity separate from its financial records associated with the transmission of electricity as required by the Board.
- 18.2 The Licensee may provide distribution services to another

distributor or public utility as described in the *Public Utilities Act* and in accordance with the rules established by the Board.

- 18.3 Except where otherwise provided in paragraph 3 of this Licence, the Licensee, other than a public utility commission or a municipal corporation, shall not, except through an affiliate or affiliates, carry on any business activity other than the distribution or transmission of electricity. This condition applies on and after the day that section 71 of the *Act* comes into force.
- 18.4 Where the Licensee is a public utility commission or a municipal corporation, the Licensee shall:
- a) maintain separate accounting and financial records with respect to its distribution business activities consistent with the Accounting Procedures Handbook; and
 - b) provide separate audited financial statements for its distribution business activity.
- 18.5 The Licensee shall allow the Board's authorized officials access to the financial and operating accounts and statements for the purpose of verification and audit.

19. Distribution Rates

The Licensee shall not charge for the distribution of electricity or retailing of electricity to meet its obligation under section 29 of the *Electricity Act* except in accordance with an order of the Board and in accordance with the methods or techniques set out in the Rate Handbook.

20. Expansion of Distribution System

- 20.1 The Licensee shall not construct, expand or reinforce an electricity distribution line or make an interconnection except in accordance with the standards set out in the Distribution System Code and the Rate Handbook.
- 20.2 In order to ensure and maintain reliable and adequate capacity, the Board may also order the Licensee to expand or reinforce its distribution system in accordance with the Distribution System Code and in such a manner as the Board may determine.

21. Disposal of Assets

The Licensee shall not sell, lease or otherwise dispose of its distribution

system as an entirety or substantially as an entirety, or any part of its distribution system that is necessary in serving the public without first obtaining leave of the Board in accordance with section 86 of the Act.

22. Performance Standards

The Licensee shall conduct its business in the manner which it reasonably considers necessary to achieve any standards, targets and criteria of performance established by the Board in accordance with section 83 of the Act.

23. Customer Complaint and Dispute Resolution

The Licensee shall:

- a) establish proper administrative procedures for resolving complaints by consumers and other market participants' complaints regarding services provided under the terms of this Licence;
- b) publish information which will facilitate its customers accessing its complaints resolution process;
- c) refer unresolved complaints and subscribe to an independent third party complaints resolution agency which has been approved by the Board;
- d) make a copy of the complaints resolution procedure available for inspection by members of the public at each of the Licensee's premises during normal business hours;
- e) give or send free of charge a copy of the procedure to any person who reasonably requests it; and
- f) keep a record of all complaints whether resolved or not including the name of the complainant, the nature of the complaint, the date resolved or referred and the result of the dispute resolution.

24. Pass-Through of Rebate

The Licensee shall comply with the pass through of rebate conditions set out in Appendix A.

25. Communication

25.1 All communication relating to this Licence shall be in writing

25.2 All communication is to be regarded as having been given by the sender and received by the addressee

- a) when delivered in person to the addressee either by hand, or by courier;
- b) 10 business days after the date of posting, if the communication is sent by registered mail; and,
- c) when received by facsimile transmission by the addressee as confirmed by the sender's transmission report.

26. Transitional Condition

Any provision of this licence that by its terms would only apply after the date on which this licence is set to expire, shall apply only to the extent that the duration of this licence is extended to include such stated time.

Schedule 1 Definition of Distribution Service Area

This Schedule specifies the area in which the Licensee is authorized to distribute and sell electricity in accordance with paragraph 3 of this Licence.

The service area described in this Schedule is based on information provided by the Licensee in the Information Request Form sent to the Board. This Schedule may be amended following the resolution of a dispute over the definition, or the clarification of the service area, or a change under any current restructuring regulation or by-law. The amendment shall be made in consultation between the Board and any affected parties identified by the Board.

The City of North Bay.

Appendix A - Pass Through of Rebate Conditions

"OPGI" means Ontario Power Generation Inc.

"Prime Rate" means the variable annual rate of interest, calculated on the basis of a calendar year, announced from time to time by the IMO's then principal Canadian banker as the reference rate of interest (commonly known as its prime rate) the in effect and used by such bank for determining interest rates on Canadian dollar denominated commercial loans made by it in Canada to customers of varying degrees of credit-worthiness.

Prompt pass throughs, with the normal bill delivered in respect of the month in which the rebate amount was received, of any rebate received from the IMO, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt, will be required by the licensee so that its ultimate customers in Ontario benefit *pro rata* on the basis of energy consumed.

If requested in writing by OPGI, such licensee shall ensure that all rebates are identified as coming from OPGI in the following form on or with each applicable bill:

"ONTARIO POWER GENERATION INC. rebate"

Any rebate amount which cannot be distributed as provided above shall be promptly returned to the IMO, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt, for use to offset the IMO uplift.

Nothing shall preclude agreements, that require the purchaser to return the rebate or any portion thereof to the seller or any other party.

Pending pass-through or return to the IMO of any rebate received, the licensee shall hold the funds in trust for the beneficiaries thereof in a segregated account.

IN THE MATTER OF the Ontario Energy Board Act, 1998,
S.O. 1998, c. O.15, Schedule B;

AND IN THE MATTER OF an order pursuant to sections
78 and 129 of the Ontario Energy Board Act, 1998 approving
rates to be charged for the distribution of electricity.

TRANSITIONAL DISTRIBUTION RATE ORDER

**The Hydro-Electric Commission of the City of North
Bay**

Pursuant to section 129 of the *Ontario Energy Board Act, 1998* ("the Act"), the Ontario Energy Board ("the Board") may make orders approving or fixing just and reasonable rates under subsection 78(3) of the Act for the distributing of electricity and for the retailing of electricity in order to meet a distributor's obligations under section 29 of the *Electricity Act, 1998*.

Prior to April 1, 1999 distribution rates were approved by Ontario Hydro under Part V of the *Power Corporation Act, R.S.O. 1990, c. P.18*, as amended. Pursuant to Part X of the *Electricity Act, 1998*, Ontario Hydro has provided the Board with the most recently approved rates of The Hydro-Electric Commission of the City of North Bay.

On April 1, 1999 The Hydro-Electric Commission of the City of North Bay (the "Licensee") was granted a transitional licence to own or operate a distribution system. Section 19 of the Transitional Distribution Licence provides that the Licensee shall not charge for the distribution of electricity or retailing of electricity except in accordance with an order of the Board and in accordance with the methods or techniques in the Board approved Rates Handbook.

The Board has initiated a stakeholder consultative to consider appropriate methods of setting rates for electricity distributors. The Board expects the work of the consultative

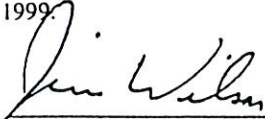

to result in a draft Rates Handbook for review by the Board. Upon approval of the Rates Handbook the Board may require the Licensee to file evidence for revised rates.

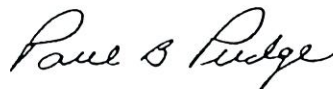

The Board believes that in the transitional period the public interest is served by continuation of the rates previously approved by Ontario Hydro.

THE BOARD ORDERS THAT:

1. The distribution rates as attached as Appendix 'A' to this Order are approved.
2. If Appendix 'A' includes rate schedules for a former electricity distributor amalgamated to, or otherwise acquired by, the Licensee, the rates in these schedules are to be continued for the service area of the former electricity distributor until further directed by the Board.
3. The Licensee shall remain bound by the Standard Application of Rates as issued by Ontario Hydro on January 1, 1991 until further directed by the Board.
4. All references to Ontario Hydro in both the approved distribution rates schedules and the Standard Application of Rates shall be deemed to be references to the Ontario Energy Board.
5. This Rate Order shall have a term not exceeding 24 months unless its duration is extended by the Board and unless superseded by further order(s) of the Board.

DATED at Toronto, April 1, 1999.

Approved by:
Minister of Energy, Science and Technology

Issued by:
Board Secretary, Ontario Energy Board

SCHEDULE OF RATES AND CHARGES

Date 96-268
Dec 17 1996

APPLICATION

- Application of rates and charges shall be in accordance with the Standard Application of Rates and amendments thereto as approved by Ontario Hydro
- No rates and charges for supplying power or rates and charges to meet the costs of any work or service done or furnished for the purpose of a supply of power shall be made except as permitted by the Standard Application of Rates or as specified herein
- Specific Service Charges, as approved, may be waived at the discretion of the supply authority

EFFECTIVE DATES

- ENERGY - January 01, 1997 for all energy used on or after that date with the electrical energy used prior to that date billed at existing rates and estimated by proration based on meter reading dates
- EQUIPMENT RENTAL - January 01, 1997 for all rentals applicable on or after that date with rentals prior to that date billed at existing rental charges
- SPECIFIC SERVICE CHARGES - January 01, 1997 for all charges incurred by customers on or after that date

MONTHLY RATES AND CHARGES

Definitions : Time periods for time-of-use (Eastern Standard Time)

- Winter : all hours, October 1 through March 31
- Summer : all hours, April 1 through September 30
- Peak : 0700 to 2300 hours (local time) Monday to Friday inclusive, except for public holidays, including New Year's Day, Good Friday, Victoria Day, Canada Day, Civic Holiday (as in Toronto), Labour Day, Thanksgiving Day, Christmas & Boxing Day
- Off-Peak : all other hours

RESIDENTIAL SERVICE - Regular :

Energy Charges		
First 250 kW.h	(per kWh)	11.50 ¢
All additional kW.h	(per kWh)	7.23 ¢
Minimum Bill		\$7.15

RESIDENTIAL SERVICE - Time Of Use : (At Customer's Request)

Residential Time-of-Use (TOU) Rates - Pilot Project - Time Periods for TOU Rates: Peak (0900 to 2100 hours); Shoulder (0700 to 0900 hours) & (2100 to 2300 hours).

Service Charge		\$14.95
Winter Energy Charges		
Peak Period All kW.h	(per kWh)	14.95 ¢
Shoulder Period All kW.h	(per kWh)	7.22 ¢
Off-Peak Period All kW.h	(per kWh)	3.77 ¢
Summer Energy Charges		
Peak Period All kW.h	(per kWh)	11.97 ¢
Shoulder Period All kW.h	(per kWh)	6.01 ¢
Off-Peak Period All kW.h	(per kWh)	2.65 ¢

RESIDENTIAL SERVICE - Miscellaneous :

Allowance for Customer-Owned Controlled Metered Water Heaters (annual)		\$50.00
Flat Rate Water Heating - Charges as attached (applicable to water heaters installed prior to December 31, 1984) per kW of billing demand	(per kW)	\$36.90
Sentinel Light - per kilowatt of connected load (unmetered energy)	(per kW)	\$28.71

GENERAL SERVICE - Regular :

(0 - 5000 kW)

Billing Demand		
First 50 kW	(per kW)	\$0.00
All Additional kW	(per kW)	\$5.40

1. GENERAL AND ADMINISTRATIVE PROVISIONS

1.1 Purpose of this Code

The purpose of the Affiliate Relationships Code is to set out the standards and conditions for the interaction between electricity distributors or transmitters and their respective affiliated companies. The principal objectives of the Code are to enhance the development of a competitive market while saving ratepayers harmless from the actions of electricity transmitters and distributors with respect to dealings with their affiliates. The standards established in the Code are intended to:

- (a) minimize the potential for a utility to cross-subsidize competitive or non-monopoly activities;
- (b) protect the confidentiality of consumer information collected by a transmitter or distributor in the course of provision of utility services; and
- (c) ensure there is no preferential access to regulated utility services.

1.2 Definitions

In this code:

"Act" means the *Ontario Energy Board Act, 1998*;

"affiliate" with respect to a corporation, has the same meaning as in the *Business Corporation Act (Ontario)*;

"agent" means a person acting on behalf of a utility and includes persons contracted to provide services to a utility;

"Board" means the Ontario Energy Board;

"Code" means this Affiliate Relationships Code for Electricity Distributors and Transmitters;

"confidential information" means information the utility has obtained relating to a specific consumer, retailer or generator in the process of providing current or prospective utility service;

"Director" means the Director of Licensing appointed under section 5 of the *Act*;

"distribution system" means a system for distributing electricity at voltages of 50 kilovolts or less along with the related facilities and structures;

"distributor" means a person who owns or operates a distribution system;

"energy service provider" means a person, other than a utility, involved in the supply of electricity or gas or related activities, including retailing of electricity, marketing of natural gas, generation of electricity, energy management services, demand-side management programs, and appliance sales, service and rentals;

"fair market value" means the price reached in an open and unrestricted market between informed and prudent parties, acting at arm's length and under no compulsion to act;

"information services" means computer systems, services, databases and persons knowledgeable about the utility's information technology systems;

"licence" means a licence issued under Part V of the *Act*;

"licensee" means a transmitter or distributor licensed under Part V of the *Act*;

"marketing" means to provide a contract or an offer, and is characterized by door-to-door selling, telemarketing, direct mail selling activities, and any other means by which an energy marketer or a salesperson interacts directly with a consumer;

"rate" means a rate, charge or other consideration and includes a penalty for late payment;

"Rate Order " means an order of the Board that is in force at the relevant time which, among other things, regulates distribution and transmission rates to be charged by a licensee;

"Services Agreement" means an agreement between a utility and its affiliate(s) for the purpose of subsection 2.2 of this Code;

"transmission system" means a system for transmitting electricity at voltages of 50 kilovolts or greater, and includes any wires, structures, transformers, equipment or other things used for that purpose;

"transmitter" means a person who owns or operates a transmission system;

"utility" means, for the purpose of this Code, an electricity transmitter or distributor that is licensed under Part V of the Act;

"utility services" means the services provided by a utility for which a regulated rate, charge or range rate has been approved by the Board under section 78 of the Act, and includes a distributor's obligation to sell electricity pursuant to section 29 of the *Electricity Act, 1998*.

1.3 Interpretations

Unless otherwise defined in this Code, words and phrases that have not been defined shall have the meaning ascribed to them in the licences issued by the Board, the *Act* or the *Electricity Act, 1998* as the case may be. Headings are for convenience only and shall not affect the interpretation of this Code. Words importing the singular include the plural and vice versa. A reference to a document or a provision of a document includes an amendment or supplement to, or a replacement of, that document or that provision of that document.

1.4 To Whom this Code Applies

This Code applies to all electricity distributors and transmitters licenced by the Ontario Energy Board under Part V of the *Act*. All licensed distributors and transmitters are obligated to comply with the Code as a condition of their licence.

1.5 Hierarchy of Codes

The Affiliate Relationships Code shall prevail over any other code established by the Board where there is a conflict, subject to any specific conditions of a distributor's or transmitter's licence.

1.6 Amendments to this Code

This Code may be amended only in accordance with the procedures set out in the licence issued to a utility.

2. STANDARDS OF CONDUCT

2.1 Degree of Separation

- 2.1.1 A utility shall ensure accounting and financial separation from all affiliates and shall maintain separate financial records and books of accounts.
- 2.1.2 A utility shall be physically separated from any affiliate who is an energy service provider.
- 2.1.3 A utility shall ensure that at least one-third of its Board of Directors is independent from any affiliate.

2.2 Sharing of Services and Resources

- 2.2.1 Where a utility shares services or resources with an affiliate it shall do so in accordance with a Services Agreement, the terms of which may be reviewed by the Board to ensure compliance with this Code. The Services Agreement shall include:
- (a) the type, quantity and quality of service;
 - (b) pricing mechanisms;
 - (c) cost allocation mechanisms;
 - (d) confidentiality arrangements;
 - (e) the apportionment of risks (including risks related to under or over provision of service); and
 - (f) a dispute resolution process for any disagreement arising over the terms or implementation of the Services Agreement.
- 2.2.2 Where a utility shares information services with an affiliate, all confidential information must be protected from access by the affiliate. Access to a utility's information services shall include appropriate computer data management and

data access protocols as well as contractual provisions regarding the breach of any access protocols. Compliance with the access protocols and the Services Agreement shall be ensured as necessary, through a review which complies with the provisions of section 5900 of the CICA Handbook. The Board may provide direction regarding the terms of the section 5900 review. The results of any review shall be made available to the Board.

- 2.2.3 A utility may share employees with an affiliate provided that the employees to be shared are not directly involved in collecting, or have access to, confidential information.
- 2.2.4 A utility shall not share with an affiliate that is an energy service provider employees that carry out the day-to-day operation of the utility's transmission or distribution network.
- 2.2.5 In the event of an emergency situation a utility may share services and resources, without a Services Agreement, with an affiliate which is also a utility.

2.3 Transfer Pricing

- 2.3.1 Where a utility provides a service, resource or product to an affiliate, the utility shall ensure that the sale price is no less than the fair market value of the service, resource or product.
- 2.3.2 In purchasing a service, resource or product, from an affiliate, a utility shall pay no more than the fair market value. For the purpose of purchasing a service, resource or product a valid tendering process shall be evidence of fair market value.
- 2.3.3 Where a fair market value is not available for any product, resource or service, a utility shall charge no less than a cost-based price, and shall pay no more than a cost-based price. A cost-based price shall reflect the costs of producing the

service or product, including a return on invested capital. The return component shall be the higher of the utility's approved rate of return or the bank prime rate.

- 2.3.4 A utility shall sell assets to an affiliate at a price no less than the net book value of the asset.

2.4 Financial Transactions with Affiliates

- 2.4.1 A utility may provide loans, guarantee the indebtedness of, or invest in the securities of an affiliate, but shall not invest or provide guarantees or any other form of financial support if the amount of support or investment, on an aggregated basis over all transactions with all affiliates, would equal an amount greater than 25 percent of the utility's total equity.
- 2.4.2 A utility shall ensure that any loan, investment, or other financial support provided to an affiliate is provided on terms no more favourable than what that affiliate would be able to obtain on its own from the capital markets and in all cases at no more favourable terms than the utility could obtain directly for itself in capital markets.

2.5 Equal Access to Services

- 2.5.1 A utility shall not endorse or support marketing activities of an affiliate which is an energy service provider. A utility may include an affiliate as part of a listing of alternative service providers, but the affiliate's name shall not in any way be highlighted.
- 2.5.2 A utility, including its employees and agents, shall not state or imply to consumers a preference for any affiliate who is an energy service provider.
- 2.5.3 A utility shall take all reasonable steps to ensure that an affiliate does not use the utility's name, logo or other distinguishing characteristics in a manner which

would mislead consumers as to the distinction between the utility and the affiliate.

- 2.5.4 A utility shall take reasonable steps to ensure that an affiliate does not imply in its marketing material favoured treatment or preferential access to the utility's system. If the utility becomes aware of inappropriate marketing activity by an affiliate, it shall:
- (a) immediately take reasonable steps to notify affected customers of the violation;
 - (b) take necessary steps to ensure the affiliate is aware of the concern; and
 - (c) inform the Director in writing of such activity and the remedial measures that were undertaken by the utility.
- 2.5.5 A utility shall apply all Rate Orders and rate schedules to an affiliate in the same manner as would be applied to similarly situated non-affiliated parties.
- 2.5.6 Requests by an affiliate or an affiliate's customers for access to a utility's transmission and distribution network or for utility services shall be processed and provided in the same manner as would be processed or provided for similarly situated non-affiliated parties.
- 2.5.7 A utility shall not transfer or assign to an affiliate a consumer for whom the utility is providing utility services (as defined in this Code), unless the customer gives permission to such transfer or assignment in writing.

2.6 Confidentiality of Information

- 2.6.1 A utility shall not release to an affiliate confidential information relating to a consumer, retailer or generator without the consent of that consumer, retailer, or generator.

- 2.6.2 A utility shall not disclose confidential information to an affiliate without the consent in writing of the consumer, retailer or generator, as the case may be, except where confidential information is required to be disclosed:
- (a) for billing or market operation purposes;
 - (b) for law enforcement purposes;
 - (c) for the purpose of complying with a legal requirement; or
 - (d) for the processing of past due accounts of the consumer which have been passed to a debt collection agency.
- 2.6.3 Confidential information may be disclosed where the information has been sufficiently aggregated such that any individual consumer, retailer, or generator's information cannot reasonably be identified. If such information is aggregated it must be disclosed on a non-discriminatory basis to any party requesting the information.

2.7 Compliance Measures

- 2.7.1 A utility shall be responsible for ensuring compliance with this Code and shall:
- (a) perform periodic compliance reviews;
 - (b) communicate the Code to its employees; and
 - (c) monitor its employees' compliance with this Code.

2.8 Record Keeping and Reporting Requirements

- 2.8.1 A utility shall maintain updated records in a form and manner as prescribed by the Board so as to be able to substantiate compliance with this Code.

2.8.2 In addition to any other reporting requirements contained in this Code a utility shall provide the following information, in a form and manner and at such times as may be requested by the Board:

- (a) a list of all affiliates with whom the utility transacts, including business addresses, a list of the officers and directors, and a description of the affiliate's business activity;
- (b) a corporate organization chart indicating relationships and ownership percentages; and
- (c) the utility's specific costing and transfer pricing guidelines, tendering procedures and Services Agreement(s).

2.8.3 Where the total cost of transactions with a particular affiliate exceeds on an annual basis \$100,000 the utility shall maintain, and make available upon request by the Board, separate records showing:

- (a) the name of the affiliate;
- (b) the product or service in question;
- (c) the form of price or cost determination; and
- (d) the start date and expected completion date of the transaction.

End of Document

SCHEDULE "G"

Other Asset Descriptions

Office Equipment – This includes \$300,000 from 1992-3 upgrading the office equipment to new ergonomic equipment. This will be fully depreciated in 2002 but should last another 10 years beyond that.

Computer Equipment – This includes roughly \$600,000 spent in 1997-1998 on HTE Software licenses and implementation. This includes capitalized employee labour costs as well as contractor implementation costs. Since implementing HTE, North Bay Hydro has taken a more full costing approach to computer and all assets, charging both purchase price and contractor/internal labour implementation costs to the asset. This full cost approach has resulted in better costing, but has eliminated the classic labour-intensive inventory-style asset listing. This approach will continue to serve well as the LDC.

The IBM AS400 runs the business software. Almost all desk stations are on the network. The Operations Building is joined by fibre to the network. Through Client Access, network users have generally three AS400 sessions. The computer literacy of our work force is high. The Operating system is Win95, with the exception of Engineering which required Win NT for their CableCad software. There are also 4 machines on Win 98 as a test for moving to this platform. Internet access for a limited group of employees is available through the server, as is the fax server software allowing documents to be faxed without being printed.

In the early 1990's the Fisher Street Office was completely renovated. During renovations shielded cable and cable terminations were installed throughout Fisher Street. These handle both telephone and network connections.

Water Tanks – Installed at end of 1998 - 4601.

Controlfèrs – In service - 1725

Sentinel Lights - 1095
